

PT Center Brief Update

Feb 28 2015

The effort to make PT Center functional is paying off, now that the bathrooms and toilets can be used. All ground work outside had been completed (general drainage - septic tank, soak pit, manholes and underground piping). The focus then turned to furnishing the inside where tiling has been going on for about two months.

There is a wide space foyer upon entry with six hand-wash basins - three to the left and three to the right.

The idea for a larger and wider facility was always to cater for an influx of people in this utility, say, during a seminar or conference where at a certain sudden time (say during breaks) the demand for usage can be at its optimum or peak.

There are two urinals for gents after the hand wash bay – one to the left and the other to the right. The remaining 7 closets are bathrooms to the left and toilets to the right – 16 cubical closets in total.

Water flows

Although the work continues, and now in its final stages to complete the inside, a group of ladies from Berea Baptist Church were able to hold their prayer retreat on Saturday at the PT Center. They gladly share about the great difference it was for them to have these facilities even in their current phase of completion. They were able to use bathrooms and toilets – for us it is an amazing step indeed! We hardly imagined we could come to this stage, but God is faithful.

(In the picture above is Mr. Dickson Okello, PT Administrator opening the tap in a historical and memorable event, and in thanksgiving to God for the flow of water that makes this facility usable)

We recall how we have attempted to imagine that one time water will flow in in this facility and make it usable as one of the most important structures for a functional center. Today, even the nice-looking flush toilets can be used, to the increasing comfort of Center users and enhanced value for the facility in general.

With a door on each closet in future, we will declare this facility fully functional and complete for use, to the glory of Jesus Christ - for whom, through whom, and to whom this Center exists, to make known his excellencies among all nations. Through this project, God continues to affirm clearly that he is at work and points us better to his plan and purpose each passing day. Only may we be found faithful to expend all we are and all we have for his Name's sake. Thank you for all your support, that makes such a difference in us and around us. Amen.
