

Brief Ministry Progress Report

We are really excited about ongoing ministry engagements that are opening more opportunities for the Institute to play its role of teaching the Bible and training Gospel workers to handle ministry. So the facility improvement and functionality of the PT Center falls within the work of mobilizing the church and training God's servants to take the Good News.

We are once again teaching the Bible to school children, something we consider a great opportunity for the growing church. It is a wonderful opportunity to share the Good News with these children every week, and hear their testimony of transformation.

We were in the North Kigezi sub-region of Uganda during the week of April 19-24.

There, we held a Short Term Apprenticeship Ministry Training (STAT) for 25

participants, and also conducted an orientation for an additional 23 people who were mobilized for the PT Institute's formal Courses. The initial course will be launched in August here.

We then went to the Ankole sub-region where we trained over 300 church leaders during the week of 26 – 30 April. There as well, we hope to take the Institute's educational programs to many who cannot make it to our venue (PT Center) in Kampala.

During the week of May 10-15 we are in South Kigezi sub-region, taking the Institute to people who cannot reach us, and teaching the Bible for church health, and mobilize Christians for outreach.

On these trips, we travel with our ministry interns and give them experience in cross cultural ministry within different set ups. It is a joy to share life with these young people, who are growing in knowledge, character and gaining skills for service. The interns spend six months with us, then they are redeployed on the mission field.

Grace is also guiding us in preparing for the Annual Shalom Women's Conference during the week of May 24 – 28, bringing about 70 women who are trainers in their own regions, to further equip them. We love what God is doing through us, and give him glory for opening doors for his saving message.

While we share these fruitful ministry ventures, we also let you know God's generous people have continually given toward improving our facilities and the **Wall (Perimeter) Fence** around the 10-acre property has brought such a great difference.

With the progress made, there is no more tress passing, so there is less intrusion as we see upgraded privacy and thus security.

The entire East Side and North Side are fully raised, waiting for finishing with plaster. The South Side is 65% laid and raised, while the West Side (where the Entry Gate will be) is 60% done.

We are so thankful to God for using our partners to bring such progress in this specific project.

Although the fencing has not yet fully gone round our acreage, there is already a sense of greatly improved security, and God willing when we close off the East-West Corner, we will be operating in a more secluded environment, with our facility, equipment, furniture and Kitchen / Dining ware safe. We are so thankful to God for this, and deeply appreciate your sacrificial involvement in this.

Because of the need for online courses following the pandemic, we started to build the **IT Center** from which we can record, edit and disseminate the Institute Courses for many who would not be able to congregate physically and build an advantage to reach those who are far off.

We are so grateful to God that some friends have pledged to avail funds to complete this structure so that we can start to use it.

We know you have remained in prayer for us concerning Isabel's situation.

She is now back with us at home, back serving in her church, studying the Bible to regain a firm spiritual direction.

Luka her son (and our grandson) is growing well.

In due course, Kenneth will come to seek hand in marriage. Isabel prefers to hold on for a while before wedding, so that she may better be re-anchored in Christ. She has picked her spiritual disciplines of Bible Study and prayer, and she is back helping musicians in the church, training and participating.

Thank you for praying, please keep with us before God, for his Kingdom to flourish among nations.
