

PT Training Schedule 2016

Africa matters, but how busy can we be?

According to new estimates from the United Nations, Africa accounts for 16 percent of the global population and will rise to 25% by 2050 and 49% by 2100. The same study estimates that Africa's population will double by 2100. That's mostly because the continent is so young. Exactly half of the continent's population is currently under 24 years of age. Nigeria's population will surpass that of the United States by 2050 at which time it will become the world's third largest country. Other studies say an estimated 20,000 Africans a day are "turning to Christ and the church.

As gospel workers, how active should we be on such a continent, with a demographic projection that clearly shows something has to be done in regard to God's Kingdom building? Even then, we must play our part in our generation.

Every quarter has an average of 60 days in which we can handle a maximum of four major activities or a minimum of six minor engagements. Prayer and planning meetings, and publishing remain ongoing amidst the full schedule.

Location in Uganda	Training Aspect	1 st Quarter	2 nd Quarter	3 rd Quarter	4 th Quarter
PT CENTER	The Institute – Training of Trainers	One week in February	One week in May	One week in August	One week in November
